ABOUT US

Located in the USA, and launched in 2011, uBiquitousGCS LLC have always been fiercely committed to serving their clients in the Import/Export industry. Based on the success of our service and expertise, uBiquitousGCS LLC has grown to 3 divisions: Financial Investments, Financial Loans and Commodity Import/Export.

We stake our reputation—built nationally and abroad—on our superior quality products, adhering to the strictest international norms and governmental regulations.

uBiquitousGCS LLC International is totally committed to not only meet, but exceed the expectations and requirements of our clients. We do this by providing them the finest quality products and services. With our vast experience of regional and seasonal climatic variations, we are leaders in selecting top quality products. Our team of experts ensure the highest product quality standards are surpassed, and test the products based on various parameters, at intervals, before dispatching them. We have been successful because of our drive to exceed all quality standards, and we will continue to do so.

Our aim is to ensure our clients, importers and exporters, grow their businesses while maximizing their profits. We do this by helping our clients become more efficient in production while employing the highest possible standards of customer service.

uBiquitousGCS LLC are proud to be leading distributors of TOP QUALITY:

- Agricultural products

Non-Recourse Loan

A non-recourse loan is a type of loan secured by collateral, which is usually a bank instrument like SBLC or BG. Therefore, through careful planning, the trade program can make huge profit and is sufficient to cover the loan granted to the borrower.

Below is an example of what to expect in the 50M BG or SBLC issuance and Monetization process.

Your client is seeking to finance their project or trade finance by way of a Non-Recourse loan. The applicant needs to get into a contract for the SBLC/BG Issuance, and also for Monetization, wherein the monetizer takes over the SBLC and pays the applicant or beneficiary non-recourse loan, at 60% to 70% LTV. Essentially, it is a two-step process —get an instrument from a provider, then have it monetized from a monetizer. Our provider is well positioned for both processes.

For example

Lease

TRANCHE of \$50 MILLION Swift Fees \$50,000
After MONETIZATION or Drawdown at 60% LTV

- 4% to Provider \$2M
- 2% to Consultant \$ 1M
- 54% to client \$27M Balance from 60% LTV after drawdown.

Purchase

TRANCHE of \$50 MILLION Swift Fees \$50,000
After MONETIZATION or Drawdown at 70% LTV

- 30% to Provider:15M
- 2% to Consultant:1M
- 38% to Client: 19M Balance from 70% LTV after drawdown.

Once issued, The SBLC becomes the client's asset but cannot be monetized multiple times at once.
